

FRENCH EXCHANGE PROGRAMME

Ahlcon Public School recently organized a French Exchange Programme for classes 6th – 10th. It turned out to be a great learning experience for the students not only about the language but also about a culture of an altogether different part of the world- France. The students were able to build a new outlook towards the world. It was a ten day trip to Paris and Rouen where they got to interact and live with the locals and understand the lifestyle, very different to their own. The students witnessed the beauty of Eiffel Tower, Arc d' Triomphe, Champs Elysees, Etertat a beach, Notre Dame de Rouen, Bateaux Mouche in Paris, Louvre the museum, Sacre Couer and Disneyland. What made the trip most memorable was an interaction with French teachers and activities that developed the core personality of the students. This trip made the students more confident & enhanced their fluency in French in their day to day life. Students made friends for a lifetime. This has not just been a trip but a learning experience that the students will cherish always.
